

15 April 2015

ASX ANNOUNCEMENT

APPENDIX 4C – QUARTER ENDED 31 MARCH 2015

Brisbane, Australia – **ImpediMed Limited** (ASX: IPD) (“the Company”), is pleased to provide its Appendix 4C quarterly cash flow report (unaudited) for the quarter ended 31 March 2015.

Total revenue for the quarter increased to \$1.5 million, including lymphoedema sales of \$0.7 million. Operating cash outflow for the quarter was \$3.6 million. Cash receipts from customers for the quarter were \$1.3 million and cash on hand as of 31 March 2015 was \$36.0 million.

Key highlights from the quarter:

- CPT® Category I Code 93702 for the Company’s L-Dex® procedure for the assessment of lymphoedema went into effect as of 1 January 2015.
- Successfully launched additional two L-Dex pilot program sites in the US.
- Announced MD Anderson Cancer Center and the Mayo Clinic as additional sites for the post approval clinical trial.
- ImpediMed added to the S&P/ASX 300 in March 2015.

President and CEO Richard Carreon stated, “Although it is very early days, we are delighted with our initial targeted launch efforts and the implications for our broad US commercialisation of L-Dex later this calendar year. With our three major pilot program sites we are developing best practices for the wide-scale adoption of L-Dex in the US lymphoedema market. I’m also pleased that we have been able to attract such high quality institutions for the post approval clinical trial. These early efforts are key elements in our roll-out plans for successfully commercialising L-Dex in the US market place.”

About ImpediMed

ImpediMed Limited is the world leader in the development and distribution of medical devices employing Bioimpedance Spectroscopy (BIS) technologies for use in the non-invasive clinical assessment and monitoring of fluid status. ImpediMed's primary product range consists of a number of medical devices that aid surgeons, oncologists, therapists and radiation oncologists in the clinical assessment of patients for the potential onset of secondary lymphoedema. Pre-operative clinical assessment in cancer survivors, before the onset of symptoms, may prevent the condition from becoming a lifelong management issue and thus improve the quality of life of the cancer survivor. ImpediMed has the first medical device with an FDA clearance in the United States to aid health care professionals, clinically assess secondary unilateral lymphoedema of the arm and leg in women and the leg in men.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report except for any additional disclosure requirements requested by AASB 107 that are not already itemised in this report.
3. **Accounting Standards.** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

+ See chapter 19 for defined terms.
